

# Push-Up Tools

## THE BASIS OF GOOD TOOLING

is a clear understanding of the requirements of the particular application.

Tools for Forming industry  
Tools for Stamping industry  
Tools for Molding industry  
Gauges, Jigs, Fixtures and Machinery Parts

## Push-up Tools

Carbide Dies | Trimming Dies | Thread Rolling Dies | Segmental Dies | Pins and Punches  
Die block, Inserts, Stamping Punches | Jigs, gauges and fixture | Molding tools

## Abouts Us

We started operations in 1983, as Pushup Industries, a small-scale unit engaged in the manufacturing of carbide dies & trimming dies for cold forge industry. Between the years 1996-97, we introduced thread-rolling dies to our product portfolio. Later in the year 2012-13, we diversified to stamping and molding tools.

From the start, our corporate values revolved around product development & customer satisfaction & driven by these values we expanded to form Push-Up Tool Udyog Pvt. Ltd in 1989.

Our mission is to help our customers build better products with increased efficiency & at the same time economizing the tool cost. To keep up with our mission, we provide our customers with quality technical & application assistance with high quality dies & most responsive customer service.

To keep pace with ever demanding customers, we have made inputs in the form of state-of-the-art machineries, technical people & management information systems. An extensive & sophisticated process control system ensures that the quality is built into the product at each step. This eventually leads to a completely documented & traceable finished products.

## Our product range includes

Carbide Dies | Trimming Dies | Thread Rolling Dies | Segmental Dies | Pins and Punches  
Die block, Inserts, Stamping Punches | Jigs, gauges and fixture | Molding tools
